Professional Neuromodulation Pain Therapy System

David Tyree #85, New York Giants

“When I broke my wrist in the beginning of the 2007 Season I was concerned about the pain I felt trying to hold onto the football and how fast I could recover from the injury. I used Sportswave® every day to significantly reduce my pain and accelerate my recovery. During rehab it allowed me to exercise my wrist with more resistance through a greater range of motion and there was no post-exercise pain. Sportswave® allowed me to get back to playing without pain, 3 weeks sooner than the doctors expected and to make catches like ‘The Catch’ in the Super Bowl.”

– David Tyree #85, New York Giants
